Amadeus Energy Ltd is an ASX listed energy company that generates value for shareholders by increasing oil and gas production and growing reserves through the acquisition and development of existing long-life on-shore oil and gas fields and through exploration activity. This is achieved by acquiring properties that have significant development and improvement potential and by investing in a combination of low, medium and high-risk exploration activity. Potential reserves of up to 20 million barrels of oil and 200 billion cubic feet of gas (100%) are being targeted through these development and exploration activities.
